Scissors for cutting paper

Glue sticks

Newspaper to protect tables and to apply glue

Bring a wide range of high-quality magazines, such as fashion, travel, nature, garden, house, car and motorcycle. The more interesting the images, the better. Here is a 'hint' so you can understand varieties of magazines needed. What would evolve if all "species" broke down? All animals, plants and man-made objects could "marry" each other. Would new beings have 2 legs or 4 or 100? Would they stay in one place like trees or buildings? What one new being would evolve that has some animal, plant and man-made components?
