

Potomac Fiber Arts Guild  
June 2026 Workshops  
Anna Hrachovec

**Student Supply List:**

- Small amounts of yarn (20 yards or less) in a few colors.  
Yarn weight depends on personal preference and familiarity with circular knitting—I recommend worsted weight yarn for those who are less experienced, and fingering-weight yarn for those with more experience.
- Set of 4 double-pointed needles—size 5 US (3.75mm) for worsted-weight yarn; size 1 US (2.25mm) for fingering weight yarn  
Note: A circular needle and magic loop technique may be used, but DPNs will be the focus of the workshop.
- Small tapestry needle
- T pins
- Fabric or colored paper to create backgrounds for the animated scenes

**NOTE:** Students must download 'Stop Motion Animation' app to their phones. Make sure you have means to prop up your phone: a tripod, or a case with a stand, a mug also works.
